NATIONAL ADVERTISERS—

Are coming more and more to realize that newspaper or magazine publicity brings better returns when coupled up with an advertisement for the local agent in the city directory. Put "See the city directroy for our local agent" on all your advertising and see to it that he is listed under all the classifications of your line.

LOCAL ADVERTISERS—

Will improve their sales of nationally advertised products if they can induce their supply house to advertise in the above manner.

NATIONAL ADVERTISERS—

Are coming more and more to realize that newspaper or magazine publicity brings better returns when coupled up with an advertisement for the local agent in the city directory. Put "See the city directroy for our local agent" on all your advertising and see to it that he is listed under all the classifications of your line.

LOCAL ADVERTISERS—

Will improve their sales of nationally advertised products if they can induce their supply house to advertise in the above manner.

Where does your Advertising go?

When your advertising matter goes out hit or miss to any old sort of a list of names, there's bound to be tremendous waste.

Polk's lists are different—because they are based on original data—the data that goes into Polk's 400 City, County, State and National Directories. Directory publishing is our principal business.

98% delivery is guaranteed on our lists—can you ask for any better proof of efficiency?

Form letters—well executed—command attention. We do addressing, multi-typewriting, filling in, folding, enclosing and mailing.

PREFACE

In presenting this, the twenty-second volume of the Jacksonville City Directory, the publishers feel confident they are giving to the public the most complete and accurate directory ever issued.

The department of Miscellaneous Information beginning at page 77 is a complete and comprehensive guide to the State, County and City governments, Churches, Public and Private Schools, Banks, Courts, Hospitals and Asylums, Clubs, Benevolent, Literary and other associations, Labor Unions, Secret Societies, etc. This is followed by the Street Guide or Directory of Householders, pages 97 to 217, which consists of the name and description of each street and avenue in alphabetical order, the numbers on each street also being shown together with the names of the occupants of each building and at what number the intersecting streets cross. By use of this department the exacct location of any house or building in the city can be immediately and exactly ascertained.

The Alphabetical List of Names commencing at page 220, contains the names of all business firms and corporations, and the inhabitants of the city over a certain age, together with the occupation and address of each individual. The Classified Business Directory, beginning at page 1275, is a complete exhibit of the commercial, manufacturing, professional, financial and other business interests of the city, arranged in alphabetical order under their respective headings.

The canvass of the current edition as heretofore, has been extended to cover South Jacksonville, Panama, Ortega, Murray Hill, Brentwood, and other outlying territory, the residents of which are so closely identified with the city as to make their inclusion in the city directory a necessity.

Population.

The basis upon which the population of a city is calculated, from the number of names contained in the city directory, has been established by directory publishers after a thorough investigation of the facts, and it is not offered to the public on authentic calculation. In comparing the estimated population of Jacksonville with the population as given by 1920 U. S. census, the following facts must be considered: The U. S. census enumeration is confined strictly to within the incorporate limits of the city, while the directory canvass is not confined to the incorporate limits, but embraces all the contiguous resident territory surrounding the city, that is as important and necessary part of a directory as the incorporate territory.

The number of names contained in this issue of the Jacksonville Directory is 48,744. The population of the territory embraced in the directory, upon a calculation on a basis of 2½ to the name, the directory populaltion of Jacksonville is 121,862.

Respectfully,
R. L. POLK & CO.,
Publishers.

Service

When you place an order for printing, one of the main things you want is **SERVICE.** You do not want to wait until next week or next month for a few letter heads or bill heads—or any other item of printing.

YOU WANT SERVICE

We have built up a most enviable reputation for promptness. Our customers know that when they place an order with us they will not only get the best of workmanship at the most reasonable prices, but that they will get service also.

Call us when you are in need of printing. No matter how small the order (or how large) we will take care of you.

WHO DOES YOUR LAUNDRY

And the next question

Is it done properly?

We have a distinctive way of Laundering—we study your interests ahead of our own. It's not philanthropy, either. It's simply sound business policy to please you with meritorious service. We figure that a satisfied customer is our best asset.

NOW IT'S UP TO YOU

If you want your linen to enjoy long life, to be spotlessly clean, to have exactly the right finish—send it to us.

We'll use no acids or chemicals on it—just soap, pure soft water and plenty of "know how" and send you back a bundle that will be a pleasant surprise.

(Florida's Famous Soft Water Laundry)

Modern, Fireproof, Sanitary

FOUR COMPLETE AND SEPARATE DEPARTMENTS

IN our department for Private Family Household Linen, each family is given an individual tub immediately on the reception of the work at the plant, it never coming in contact with the work of anyone in its entire course through the plant. This is well worth thinking about.

The Circulation of

THE FLORIDA TIMES-UNION

IN THE CITY OF JACKSONVILLE and immediate suburbs is

GREATER THAN the number of telephone subscribers in Jacksonville, including party lines, business and residence phones.

GREATER THAN the number of city electric light "cut ins"—heating, power and light combined. Many business houses have more than one electric "cut in."

GREATER THAN the number of residence and business houses in Jacksonville connected for city water.

GREATER THAN the number of taxpayers in the City of Jacksonville.

GREATER THAN the number of registered voters not alone in the City of Jacksonville but in DUVAL COUNTY.

The number of readers of the Times-Union is more than twice as great as the population of Jacksonville.

The circulation of the Sunday Times-Union in the City of Jacksonville is several thousand greater than the city circulation of the daily Times-Union.

The circulation of the Times-Union is many thousands greater than that of any other newspaper in this territory. The Times-Union leads by many thousands in City, State and Total Circulation.
